

Murfreesboro Design Guidelines and Standards

Comment Card

Thank you for your interest in the citywide design guidelines and standards development project. Your responses will be shared with planners and city officials to assist us in developing guidelines (temporary, to be in effect Feb. 1, 2006) and standards (permanent, to be in effect in late summer 2006) that reflect the needs and desires of Murfreesboro residents.

1. What type of image do you want to reflect to visitors and citizens traveling throughout Murfreesboro? How would you try to accomplish this image?

2. Typically, factors like signage, landscaping, architecture, lighting, streetscapes (including sidewalks), utilities and others relating to land development, are part of design guidelines and standards. What, among these factors, is most important to you in developing standards for Murfreesboro. Please describe.

3. Can you think of a development in the Murfreesboro area that already reflects what you would like to see citywide? Please describe.

4. What concerns, suggestions or further thoughts do you have for the development of these guidelines and standards?

5. Are there any negative repercussions that you are concerned about relative to the impact the guidelines or standards may have on the City?

(personal information below is voluntary; if you would like to receive updates about this project, please include your email address.)
